Gold Road Resources

Exploration fires up

Analysts | James Wilson | Matthew Keane

Recommendation	BUY
Market Cap	\$728m
Current Price	\$0.83
Target Price	\$1.07

Event | Positive

GOR has announced its \$23m / 163,000m Yamarna exploration program has commenced. The funds will be deployed largely in the 100% owned tenements (\$17m expenditure, 144,000m) with the remainder on the Gruyere JV (\$6m, 19,500m) aiming to target near mine satellite discoveries. The drill programs aim to rank their priority taking into account strategic fit and quality. Overall, a large chunk of the latest programs (Montagne, Tamerlane, Gilmour/Morello) are located proximally to existing satellite resources at Atilla-Alaric – a strategic position geographically to the Gruyere processing plant and infrastructure. BUY, TP \$1.07ps.

Near Mine Satellites

A clear focus of the programs is the desire to build inventories in satellite discoveries. GOR will commence resource-reserve conversion of the Montagne deposit (Atilla-Alaric Trend) near term. Current open pittable resources stand at 310koz @ 1.55g/t (GOR 50% share), so further enhancement of the resources in this area clearly adds to near term mine life.

Regional targets

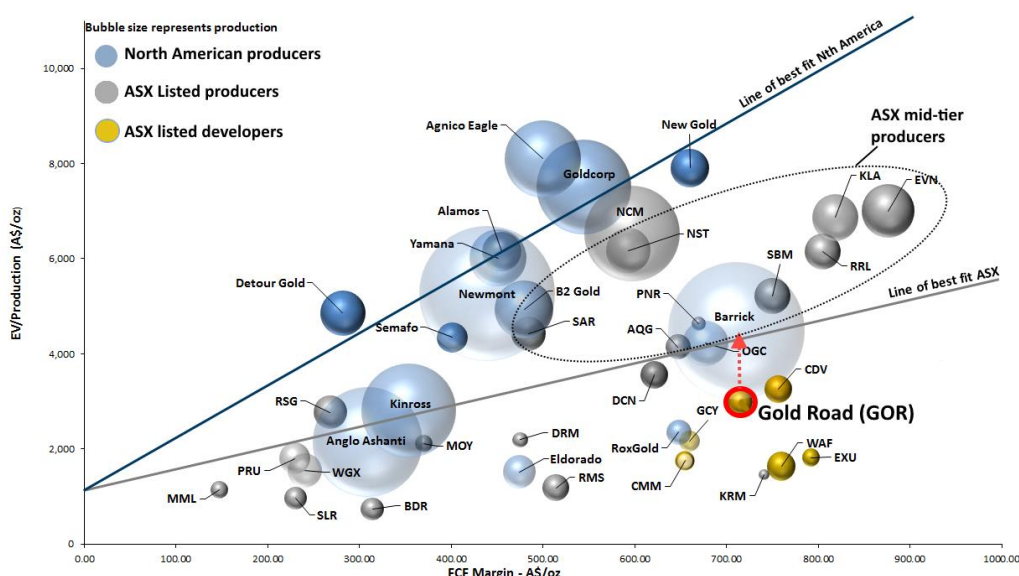

Ibanez: We expect particular focus on the Corkwood-Ibanez trend with diamond drilling planned in May 2018 to follow up on significant results from last year's program outlining a 2km corridor of mineralisation with intercepts including 10m @ 28.7g/t and 19m @ 2.52g/t Au.

Gilmour Morello – Follow-up of results from 2017 including drilling 6m @ 12.52g/t Au (inc 3m @ 20.52g/t Au)

Trading on Cheap Metrics

GOR trades at a forward-looking EV/Production of \$2,900/oz versus its peer group of +200kozpa producers including SBM (\$5,100/oz), RRL (\$6,050/oz) and SAR (\$4,500/oz). We argue that as construction is advanced, the discount to our NAV, and to its peer group will unwind.

Recommendation

Maintain BUY recommendation and target price of \$1.07ps.

General Disclosure and Disclaimer

This research has been prepared by Argonaut Securities Pty Limited (ABN 72 108 330 650) ("ASPL") or by Argonaut Securities (Asia) Limited ("ASAL") for the use of the clients of ASPL, ASAL and other related bodies corporate (the "Argonaut Group") and must not be copied, either in whole or in part, or distributed to any other person. If you are not the intended recipient you must not use or disclose the information in this report in any way. ASPL is a holder of an Australian Financial Services License No. 274099 and is a Market Participant of the Australian Stock Exchange Limited. ASAL has a licence (AXO 052) to Deal and Advise in Securities and Advise on Corporate Finance in Hong Kong with its activities regulated by the Securities and Futures Ordinance ("SFO") administered by the Securities and Futures Commission ("SFC") of Hong Kong.

Nothing in this report should be construed as personal financial product advice for the purposes of Section 766B of the Corporations Act 2001 (Cth). This report does not consider any of your objectives, financial situation or needs. The report may contain general financial product advice and you should therefore consider the appropriateness of the advice having regard to your situation. We recommend you obtain financial, legal and taxation advice before making any financial investment decision.

This research is based on information obtained from sources believed to be reliable and ASPL and ASAL have made every effort to ensure the information in this report is accurate, but we do not make any representation or warranty that it is accurate, reliable, complete or up to date. The Argonaut Group accepts no obligation to correct or update the information or the opinions in it. Opinions expressed are subject to change without notice and accurately reflect the analyst(s)' personal views at the time of writing. No member of the Argonaut Group or its respective employees, agents or consultants accepts any liability whatsoever for any direct, indirect, consequential or other loss arising from any use of this research and/or further communication in relation to this research.

Nothing in this research shall be construed as a solicitation to buy or sell any financial product, or to engage in or refrain from engaging in any transaction. The Argonaut Group and/or its associates, including ASPL, ASAL, officers or employees may have interests in the financial products or a relationship with the issuer of the financial products referred to in this report by acting in various roles including as investment banker, underwriter or dealer, holder of principal positions, broker, director or adviser. Further, they may buy or sell those securities as principal or agent, and as such may effect transactions which are not consistent with the recommendations (if any) in this research. The Argonaut Group and/or its associates, including ASPL and ASAL, may receive fees, brokerage or commissions for acting in those capacities and the reader should assume that this is the case.

There are risks involved in securities trading. The price of securities can and does fluctuate, and an individual security may even become valueless. International investors are reminded of the additional risks inherent in international investments, such as currency fluctuations and international stock market or economic conditions, which may adversely affect the value of the investment.

The analyst(s) principally responsible for the preparation of this research may receive compensation based on ASPL's and / or ASAL's overall revenues.
