

KEY APPOINTMENTS TO BOLSTER GRUYERE PROJECT PFS

Highlights

- **Two leading consulting firms, GR Engineering Services and AMC Consultants appointed for PFS process and mining studies**
- **New key appointments to strengthen the Owner's Team**

As part of the Pre-Feasibility Study (PFS) for the Gruyere Project (**the Project**), Gold Road is pleased to announce the appointment of the following key roles:

PFS Consultants

- GR Engineering Services (**GRES**) has been appointed as the Process Engineers to undertake the process plant and infrastructure design and cost estimation. GRES provided key process plant design and costing input for the Gruyere Project Scoping Study. Amongst other recent work awards, GRES has recently been appointed preferred tenderer for the design and construction of the mineral processing and paste fill plant facilities at the Nova Project owned by Sirius Resources.
- AMC Consultants (**AMC**) has been appointed as the Mining Consultants to carry out open pit mine optimisation, design, planning & scheduling, and ore reserve declaration. AMC are a leading, independent mining consultancy, well established in both the West Australian and international mining industries.

Owner's Team

Gold Road has further boosted its Owner's Team with the appointment of a Principal Metallurgist and an Approvals Manager. These technical experts bring over 37 years' experience in their respective fields.

Gold Road Chairman Ian Murray said: "*The sophisticated technical and statutory work currently underway and planned for the Gruyere Project calls for a sensible balance of in-house and external capabilities. GRES and AMC are both well known in the mining industry as leaders in their specialities, and the two Owner's Team appointments have significant experience in their respective fields. Our aim is to move the Studies along quickly and thoroughly, while building up our internal capacity to ensure that we are ready for the next phase of development.*"
