Dear Sir/Madam

COMMENCEMENT OF DRILLING PROGRAMME – YAMARNA GOLD PROJECT

The Company is pleased to advise that a 7,000 m RC drilling programme has commenced at Yamarna.

The first pass RC drilling will test regional targets at Central Bore and Elvis. RAB drilling conducted in June 2009 had established particularly high-grade gold values over a 300m strike length at Central Bore. Drilling at these regional targets will extend down to 120m .

Drilling will also be undertaken on three higher-grade priority targets contained within the existing Yamarna Gold Resource (Attila-Alaric Corridor), which will be drilled down to 180m

Yours faithfully

Kevin Hart
Company Secretary

The information in this report which relates to Exploration Results, or Mineral Resources is based on information compiled by Ziggy Lubieniecki, the General Manager of Eleckra Mines Limited, who is a Member of the Australasian Institute of Mining and Metallurgy and a Member of the Australian Institute of Geoscientists. Ziggy Lubieniecki has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Ziggy Lubieniecki consents to the inclusion in the report of the matters based on this information in the form and context in which it appears.
