

NOVEMBER 2021 INVESTOR PRESENTATION

DISCLAIMER IMPORTANT NOTICES

Nature of this document: The purpose of this presentation is to provide general information about Gold Road Resources Limited (the 'Company'). Unless otherwise stated herein, the information in this presentation is based on the Company's own information and estimates. In attending this presentation or viewing this document you agree to be bound by the following terms and conditions. This document has been prepared by the Company. Information in this document should be read in conjunction with other announcements made by the Company to the Australian Securities Exchange and available at www.goldroad.com.au or www.asx.com.

Not an offer: This presentation is for information purposes only and does not constitute or form any part of any offer or invitation to sell or issue, or any solicitation of any offer to purchase or subscribe for, any securities in the Company in any jurisdiction. This presentation and its contents must not be distributed, transmitted or viewed by any person in any jurisdiction where the distribution, transmission or viewing of this document would be unlawful under the securities or other laws of that or any other jurisdiction.

Not financial product advice: This presentation does not take into account the individual investment objectives, financial situation and particular needs of each of the Company's Shareholders. You may wish to seek independent financial and taxation advice before making any decision in respect of this presentation. Neither the Company nor any of its related bodies corporate is licensed to provide financial product advice in respect of the Company's securities or any other financial products.

Forward-looking statements: Certain statements in the presentation are or may be "forward-looking statements" and represent the Company's intentions, projections, expectations or beliefs concerning, among other things, future operating and exploration results or the Company's future performance. These forward looking statements speak, and the presentation generally speaks, only at the date hereof. The projections, estimates and beliefs contained in such forward looking statements necessarily involve known and unknown risks and uncertainties, and are necessarily based on assumptions, which may cause the Company's actual performance, results and achievements in future periods to differ materially from any express or implied estimates or projections. Accordingly, readers are cautioned not to place undue reliance on forward looking statements. Relevant factors which may affect the Company's actual performance, results and achievements include changes in commodity price, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the speculative nature of exploration and project development, diminishing quantities or grades of reserves, political and social risks, changes to laws and regulations, environmental conditions, and recruitment and retention of personnel.

Disclaimer: No representation or warranty, express or implied, is made by the Company that the material contained in this presentation will be achieved or prove to be correct. Except for statutory liability which cannot be excluded, each of the Company, its directors, officers, employees, advisers and agents expressly disclaims any responsibility for the accuracy, fairness, sufficiency or completeness of the material contained in this presentation, or any opinions or beliefs contained in this document, and excludes all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission there from. The Company is under no obligation to update or keep current the information contained in this presentation or to correct any inaccuracy or omission which may become apparent, or to furnish any person with any further information. Any opinions expressed in the presentation are subject to change without notice.

Unverified information: This presentation may contain information (including information derived from publicly available sources) that has not been independently verified by the Company.

SUSTAINABLE VALUE FOR SHAREHOLDERS

CY2021 guidance³:
Production - 125-130 koz
AISC - A\$1,450-1,525/oz

Long life, Low Cost
Production >10 years

Debt Free &
Strong Balance Sheet:
A\$123.5M cash &
equivalents¹

Fully Franked Dividends:⁴
2c/share for 12 months
to June 2021

Growing Sustainable
Production to
~350 kozpa*²

Gold Road
2.3 Moz Reserve
4.5 Moz Resource²

Gruyere Underground
Potential. Drilling
Results Encouraging

~4,500km²

Yamarna: Under Explored
Frontier Greenstone Belt

*100% basis. Otherwise Gold Road attributable. Gold Road operates to a calendar financial year

¹ As at 30 September 2021. Refer to ASX Announcement dated 27 October 2021

² Refer to ASX announcement dated 15 February 2021 and 27 October 2021. Resources and Reserves attributable to Gold Road

³ Refer to ASX announcements dated 4 October 2021 and 27 October 2021. Gold Road attributable.

⁴ Refer to ASX announcements dated 16 September 2020, 10 March 2021 and 9 September 2021. Future dividends are subject to Gold Road Dividend Policy and subject to Board approval.

A LOW RISK MINING JURISDICTION

GRUYERE: A TIER 1 GOLD MINE

Gruyere: A World Class Discovery

- Gold Road discovered Gruyere in 2013
- Gruyere JV signed in 2016
- First Gold in June 2019

Gruyere: Simple Low-cost Mining

- A large open pit with low strip ratio
- Consistent grade and >9,200 oz per vertical metre

Gruyere: Simple Processing

- New SABC and gravity-CIL plant – built for purpose
- Coarse grind, rapid leach time, >90% recovery

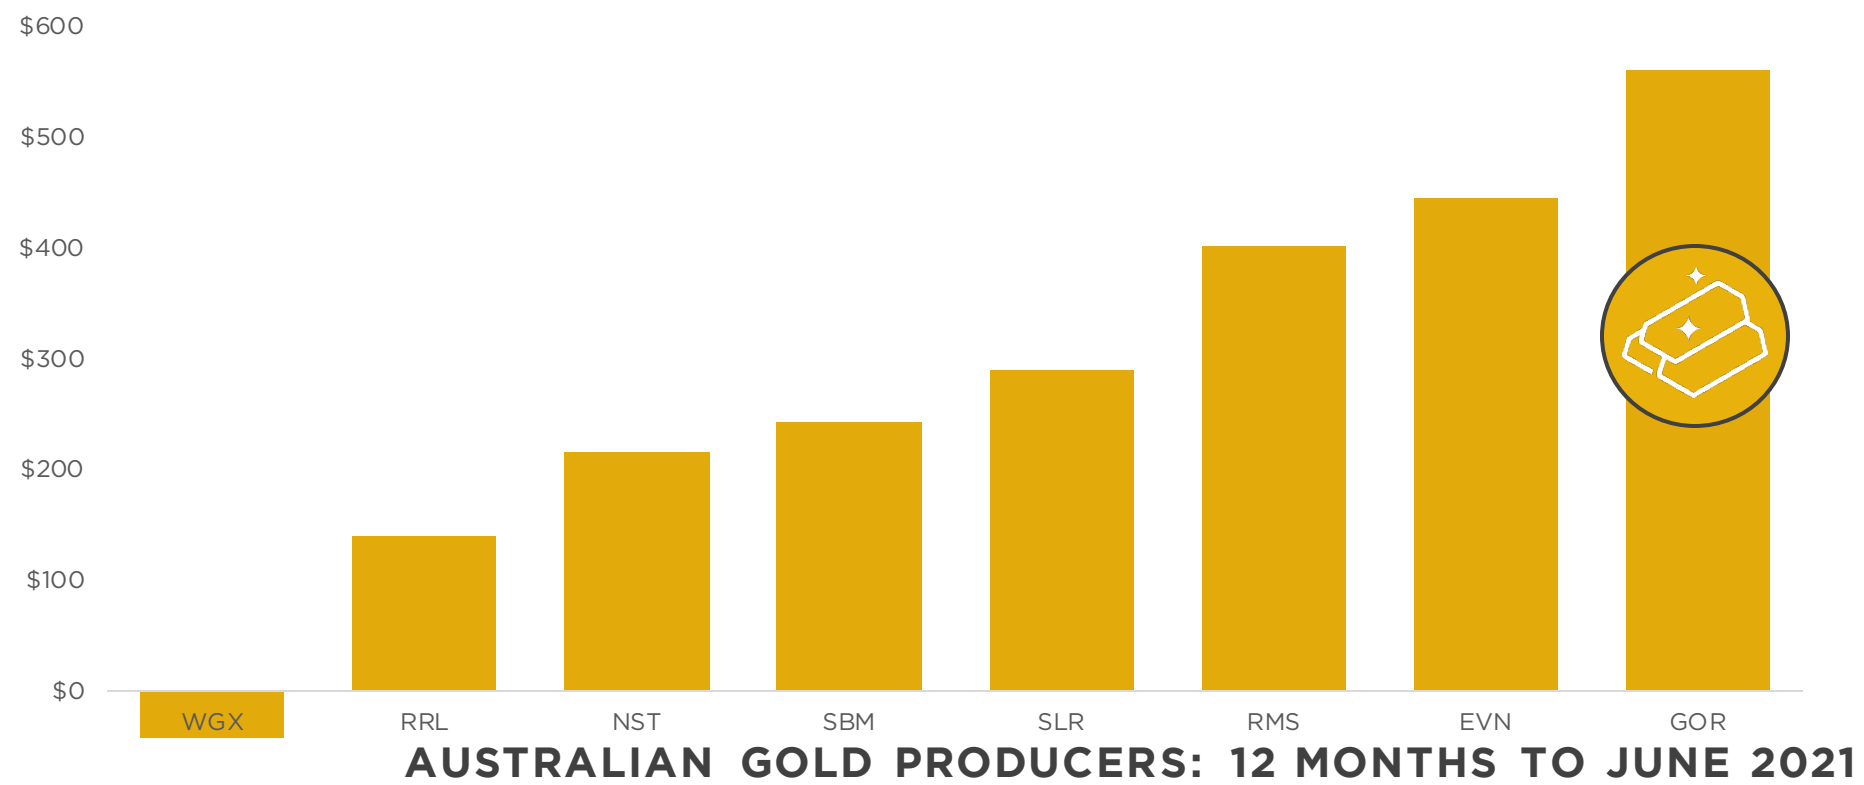

YAMARNA: AN UNDER EXPLORED GREENSTONE BELT

Strength & Returns

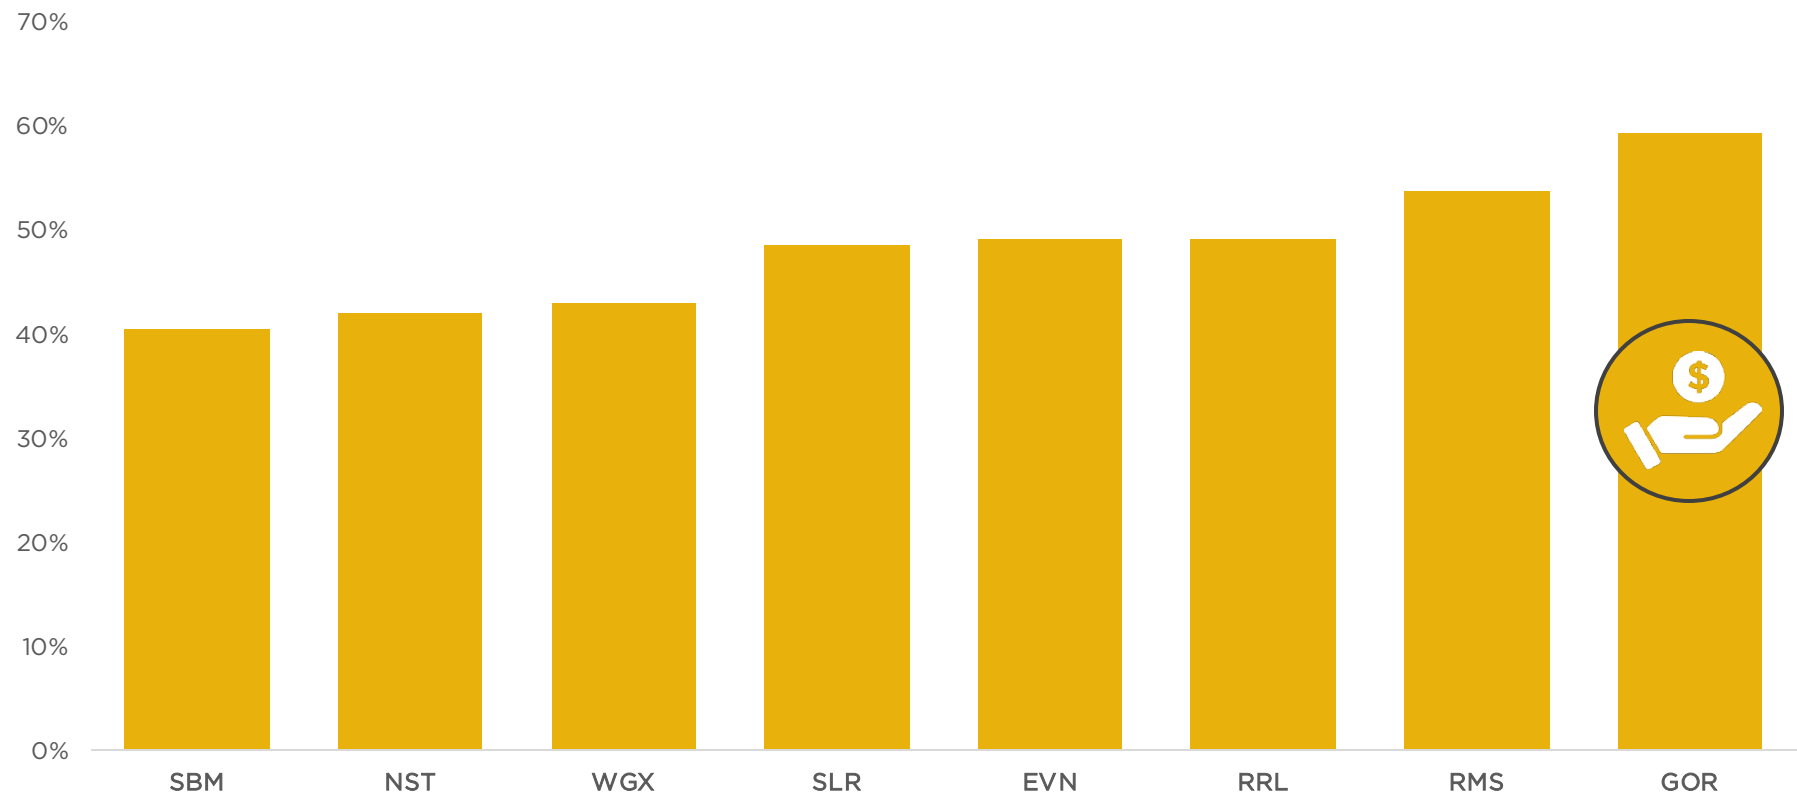

SECTOR LEADING FREE CASH FLOW

FREE CASH FLOW PER OUNCE*

*Sourced from ASX Company announcements. Free cash flow calculated as underlying free cash flow per ounce of gold sold over 12 month period to 30 June 2021. Underlying free cash flow calculated as free cash flow before debt repayments/drawdowns, dividend payments, equity proceeds, asset sales/acquisitions, sale or purchase of investments & other non-recurring items as per company cash flow statement. Gold Road 12 month data calculated from full year and half year results reported in March and September 2021 respectively.

SECTOR LEADING EBITDA MARGIN*

AUSTRALIAN GOLD PRODUCERS: 12 MONTHS TO JUNE 2021

GRUYERE: A LONG LIFE OPERATION

ANNUAL PRODUCTION TO JUNE 2021 AS A PERCENTAGE OF ORE RESERVES

 **GOLD ROAD RESOURCES**

*Sourced from ASX Company announcements. Ore Reserve taken from last reported Ore Reserves and divided into production for 12 months to 30 June 2021. RRL production assumes Tropicana production on an annualised basis. Kundana Reserves and 12 month production attributed to NST. Last 12 month's production as a percentage of current ore reserves provides an indication of reserve capacity with a lower percentage suggesting longer reserve life potential. However, this estimate may still differ considerably from actual mine life. Date of Ore Reserve update shown beneath X Axis.

Sustainable Production

SUSTAINABILITY: MAPPING THE FUTURE

GOLD ROAD: ONE OF THREE ASX GOLD PRODUCERS TO JOIN DJSI*

Chart source figures derived from respective company 2020 Sustainability or Annual Reports. 12 month period of production. GOR, NST & PRU report to a calendar year whilst others report to a June 30 end. Company scope 1 & 2 emissions.

Reporting aligns with with GRI Standards (Core), Sustainability Accounting Standards Board (SASB), and compliant with ASX Corporate Governance Council's Principles & Recommendations.

ISO 14001, ISO 45001 and International Cyanide Management Code certifications attained.

Gold Road welcomed to DJSI in Times Square

Note: See ASX announcement dated 30 March 2021
*DJSI: Dow Jones Sustainability Index Australia. Only 9 ASX Resources companies are in index. Other gold companies are NCM and EVN

CLIMATE CHANGE

SUSTAINABLE OPERATIONS ARE GOOD BUSINESS

Gruyere Renewable Energy Microgrid Expansion

- 13 MW Solar Photovoltaic (PV) array
- 4.4 MW battery energy storage solution
- 4 MW gas generation

- Enabling targeted throughput increase to 10 Mtpa

Relative to a gas only solution:

- Reduction of GHG by 16,000 tCO₂-e pa
- 5% power supply unit cost saving (MWh)*
- Ameliorates derating of gas engines at high ambient temp

Yamarna Solar Farm and Energy Storage Hub

- 187 kW Solar Photovoltaic (PV) array
- 408 kW/h Tesvolt lithium energy storage hub

- Offsetting 70% of diesel consumption, reducing cost and delivery risk
- Very stable power supply and ROI
- Fully transportable

Gruyere

YAMARNA
MEANINGFUL DISCOVERY

EXPLORATION

STRATEGY OF MEANINGFUL DISCOVERY

- **Targeting 100% owned operation to add 150 kozpa**
 - Exploring for >1 Moz discoveries on 100% owned ground
 - Strategy aligned to a discovery that 'moves the dial'
 - Focus in the Southern Project Area
- **2021 Exploration Budget of A\$33M (excluding Gruyere JV)**
 - Increased budget to accelerate AC and RC targets
 - Four rigs currently on site*
 - Encouraging results from Smokebush, Abydos, Kingston & Waffler

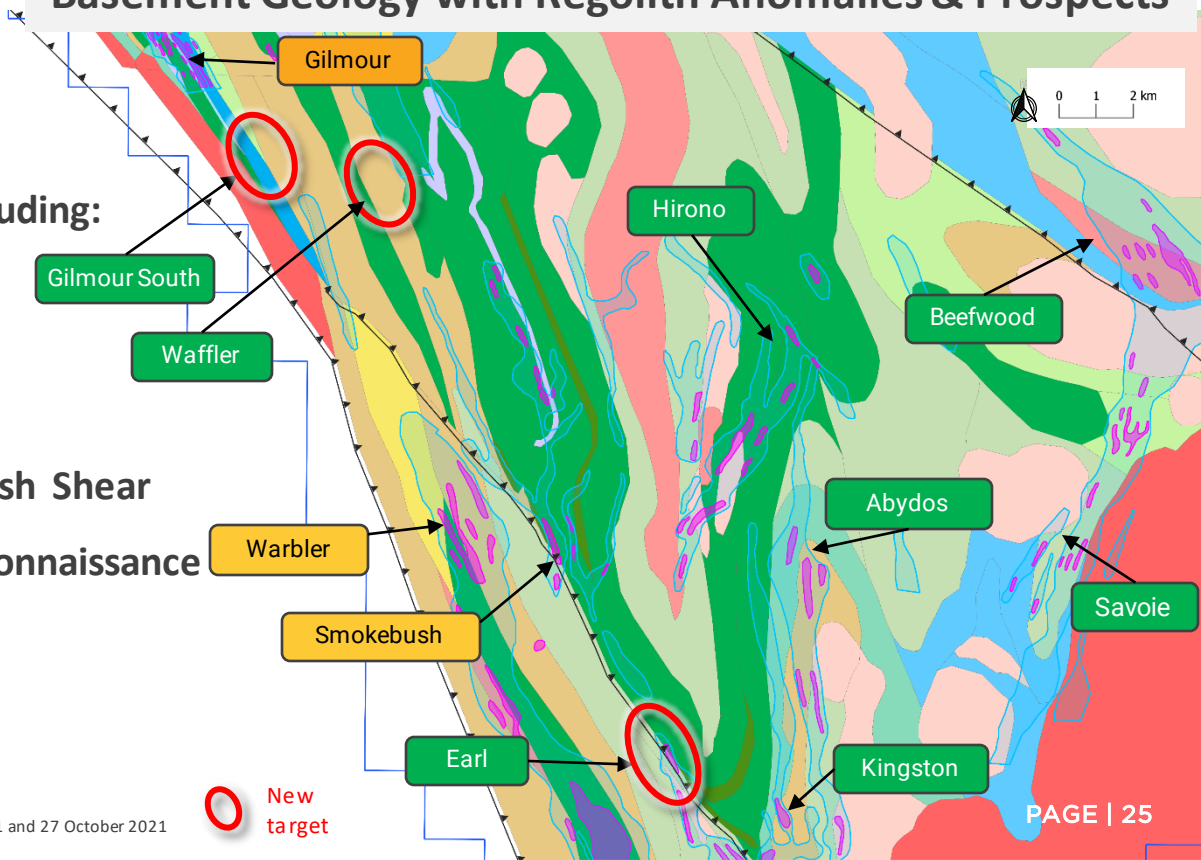

EXPLORATION FOCUS

SOUTHERN PROJECT (800km²)

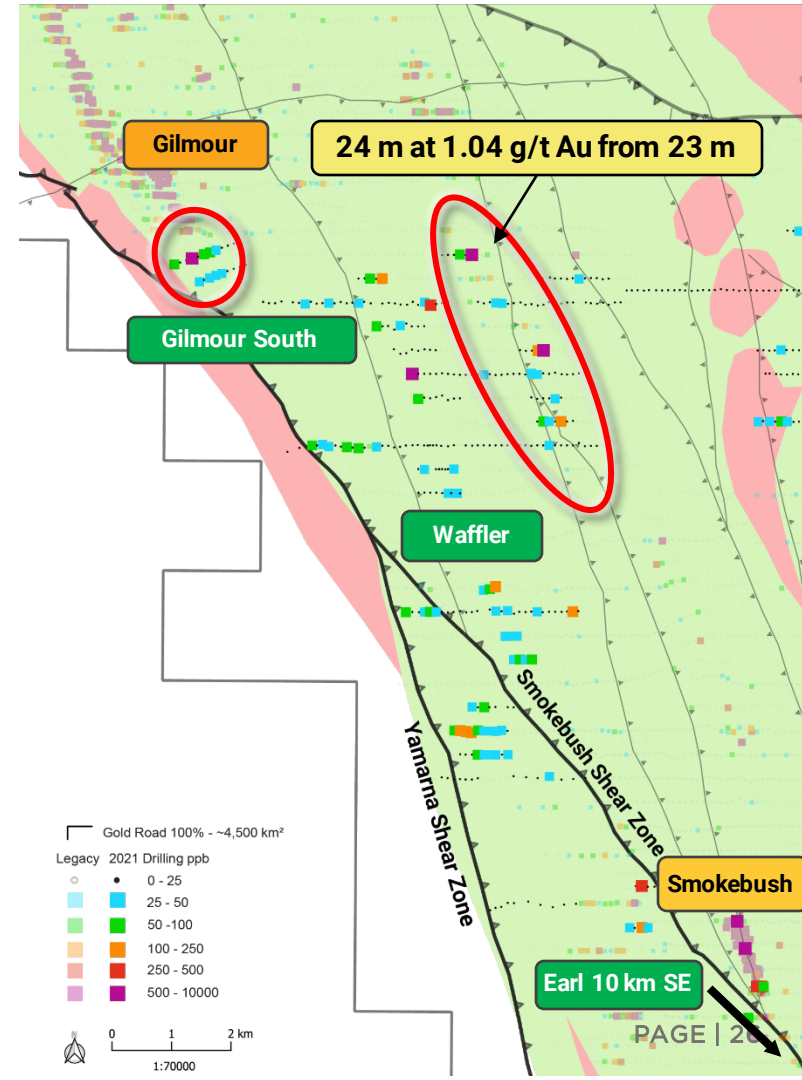

- **Gilmour Resource**
 - 258,000 ounce Mineral Resource
 - Open pit and underground
- **Smokebush: High-grade results including:**
 - 71 m at 2.94 g/t Au
 - 15 m at 6.37 g/t Au
- Large regolith anomalies identified
- Encouraging results along Smokebush Shear
- Large areas remain untested by reconnaissance
aircore drilling

Basement Geology with Regolith Anomalies & Prospects

SMOKEBUSH SHEAR

- **Waffler**
 - 3 km anomaly in hangingwall to Smokebush
 - 24 m at 1.04 g/t Au to EOH
 - RC drill programme in progress
- **Gilmour South**
 - Gilmour geology/alteration continues
 - Regolith anomalism associated with trend
 - Follow-up RC programme ready to drill
- **Smokebush Shear Zone**
 - 30 km fertile shear zone
 - Earl Target – **3.8 m at 2.4 g.t Au** in first hole
 - Initial AC & RC follow-up programmes completed

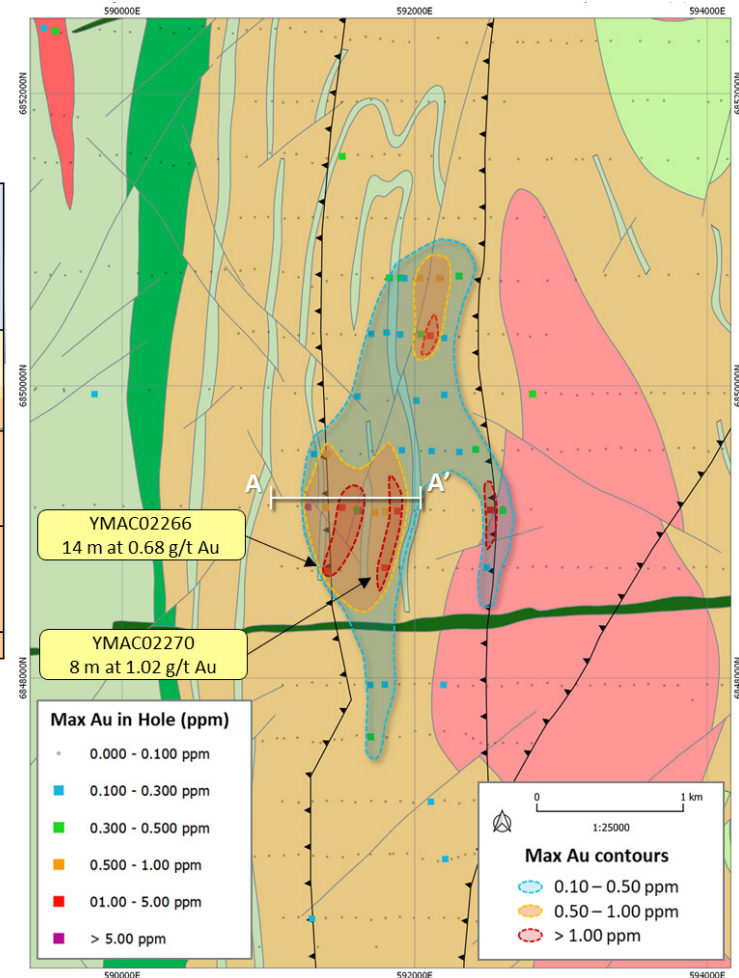

NEW TARGETS

ABYDOS - ENCOURAGING RESULTS

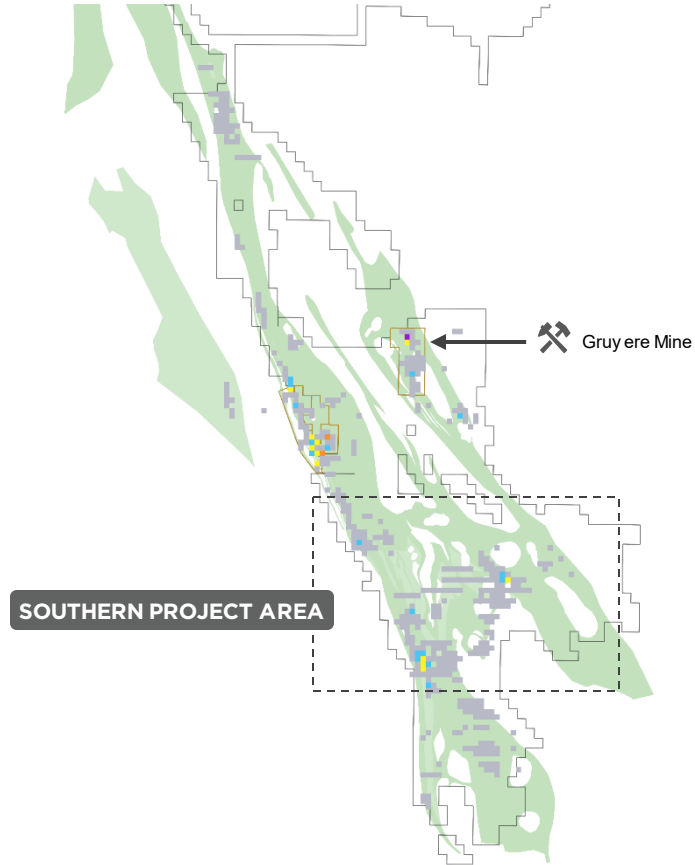

- 26 m at 1.2 g/t Au from 126 metres
- 15 m at 3.1 g/t Au from 201 metres
- Follow-up drilling planned for December Quarter

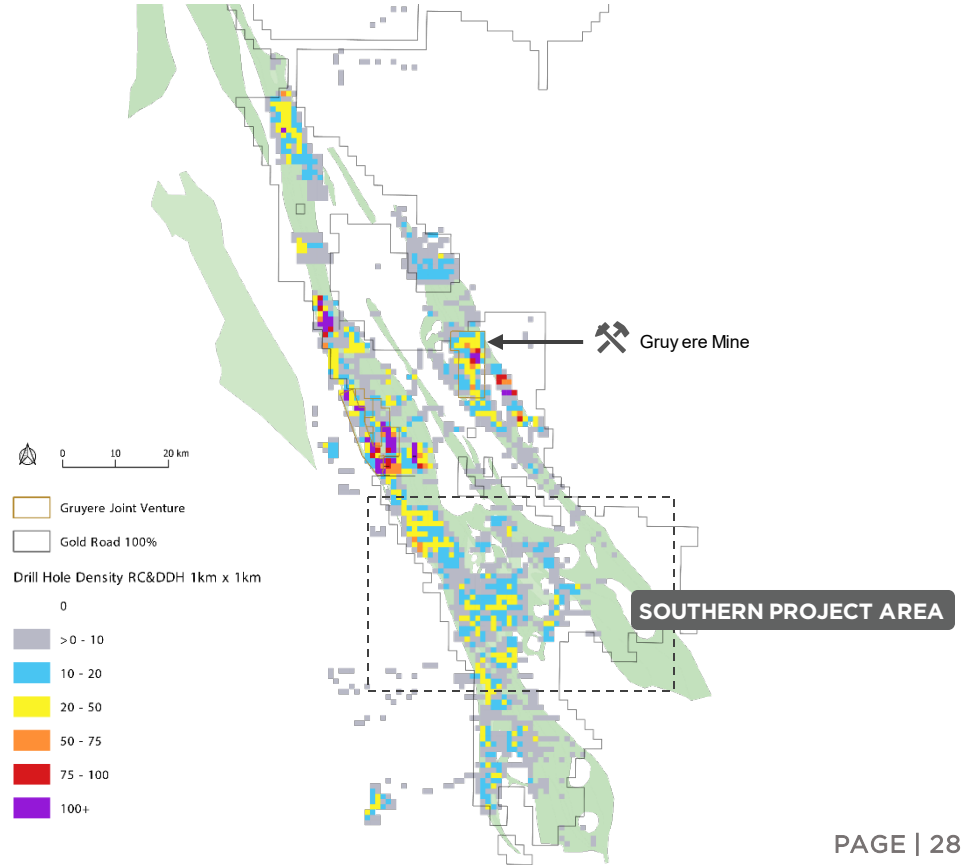

YAMARNA UNDER EXPLORED

RC & DIAMOND DRILLING DENSITY

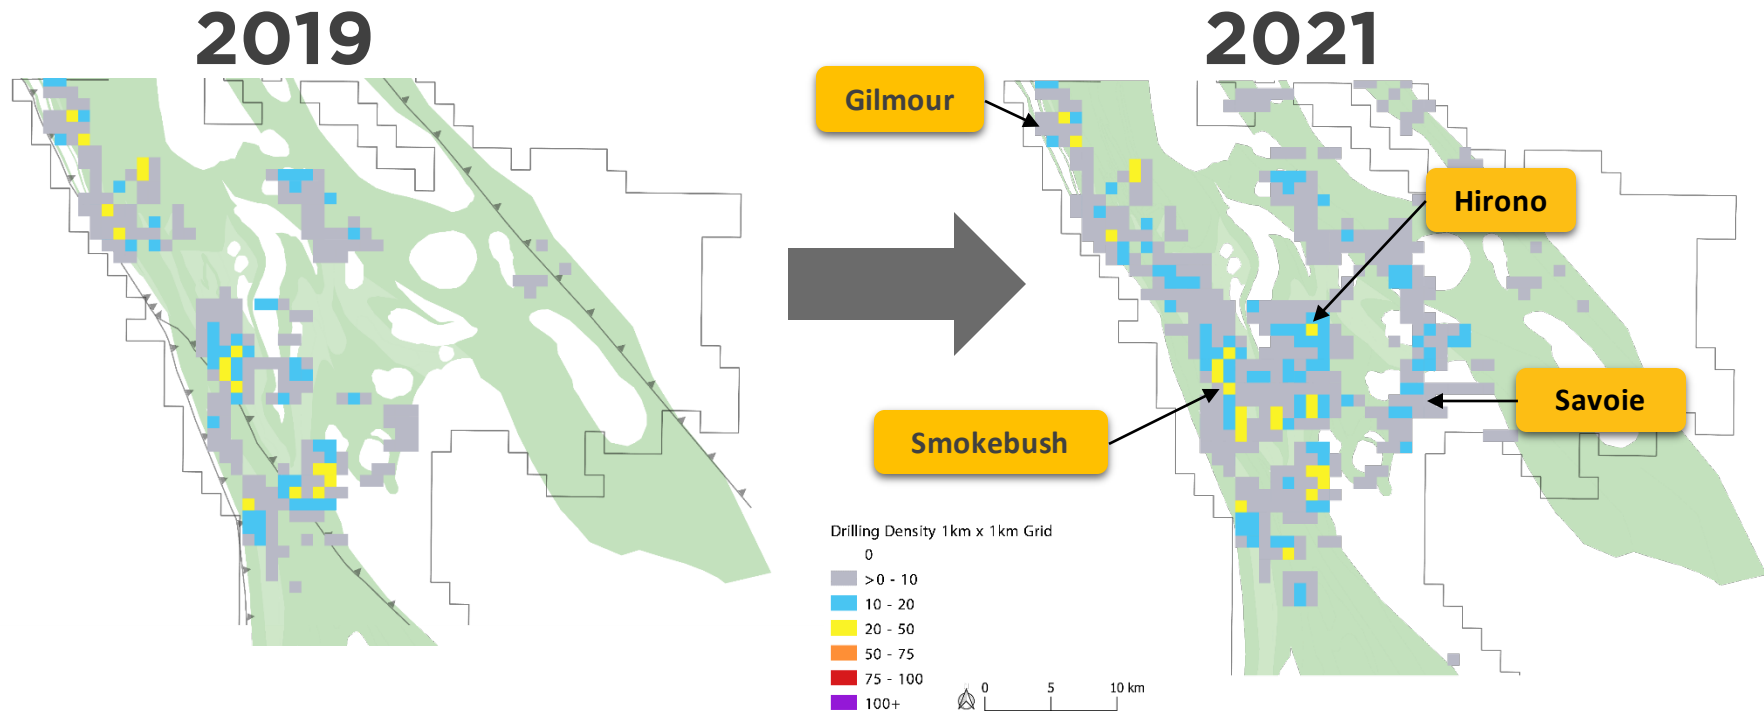

AIRCORE DRILLING DENSITY

EXPLORATION PROGRESS

DRILLING DENSITY 2019 - 2021

SUBSTANTIAL INCREASE IN DRILLING COVERAGE

FIRST PASS AIRCORE TESTING

- Use of regional aircore as an effective tool to uncover large regolith anomalies
- Delineation of fertile gold-bearing fluid pathways
- Large areas still untested

Gilmour

Southern Project Area Gravity & Aircore Drilling

Gilmour South/
Waffler

Hirono

Beefwood

Warbler

Savoie

Abydos

Smokebush
Shear

Kingston

Regolith
Anomalies

0 5 km

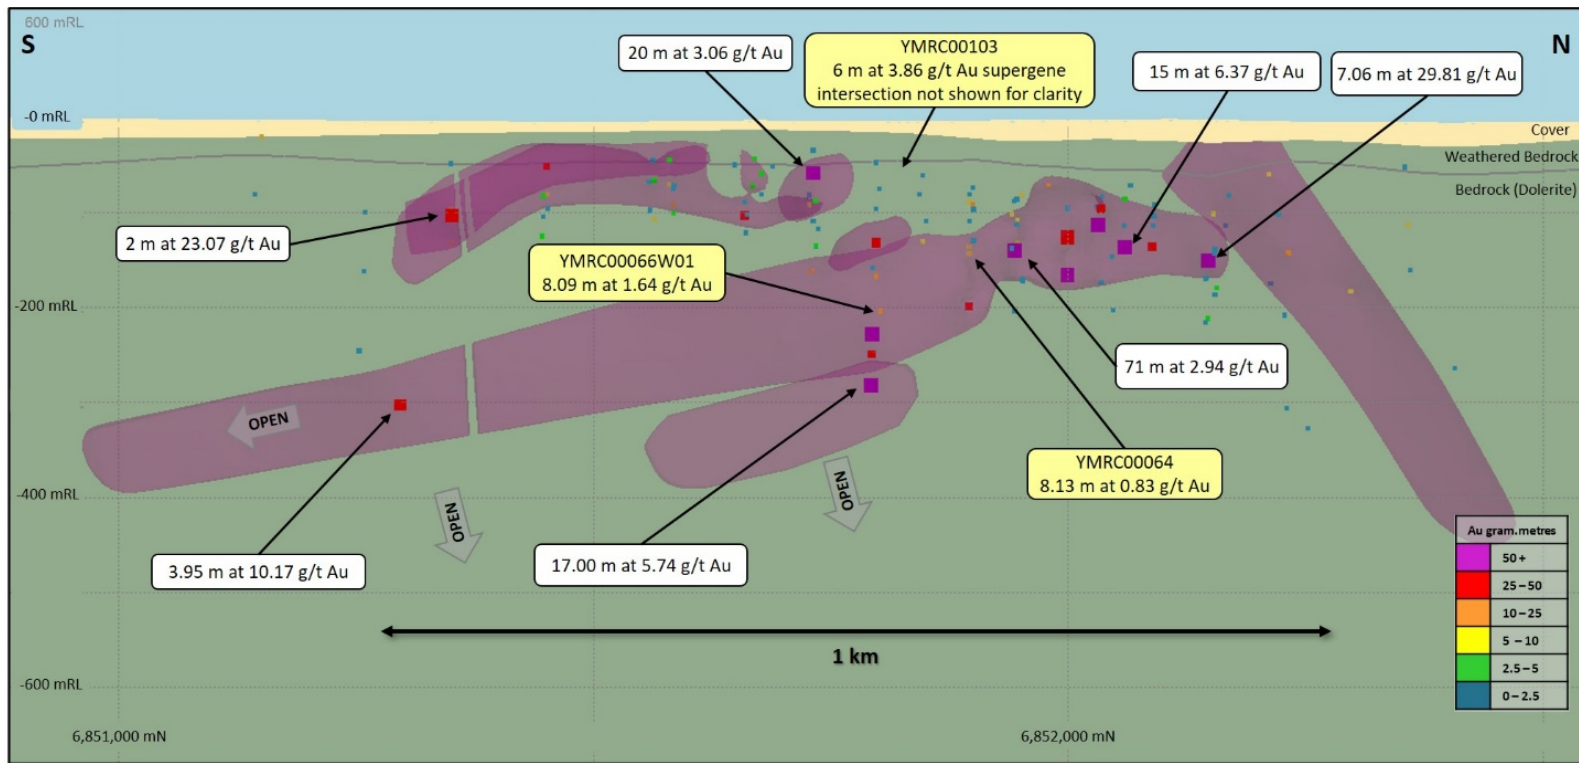

LARGE REGOLITH ANOMALIES TO TEST

- Large regolith anomalies remain untested by RC or diamond drilling
- Follow-up drilling required

SMOKEBUSH EXTENSIONAL DRILLING

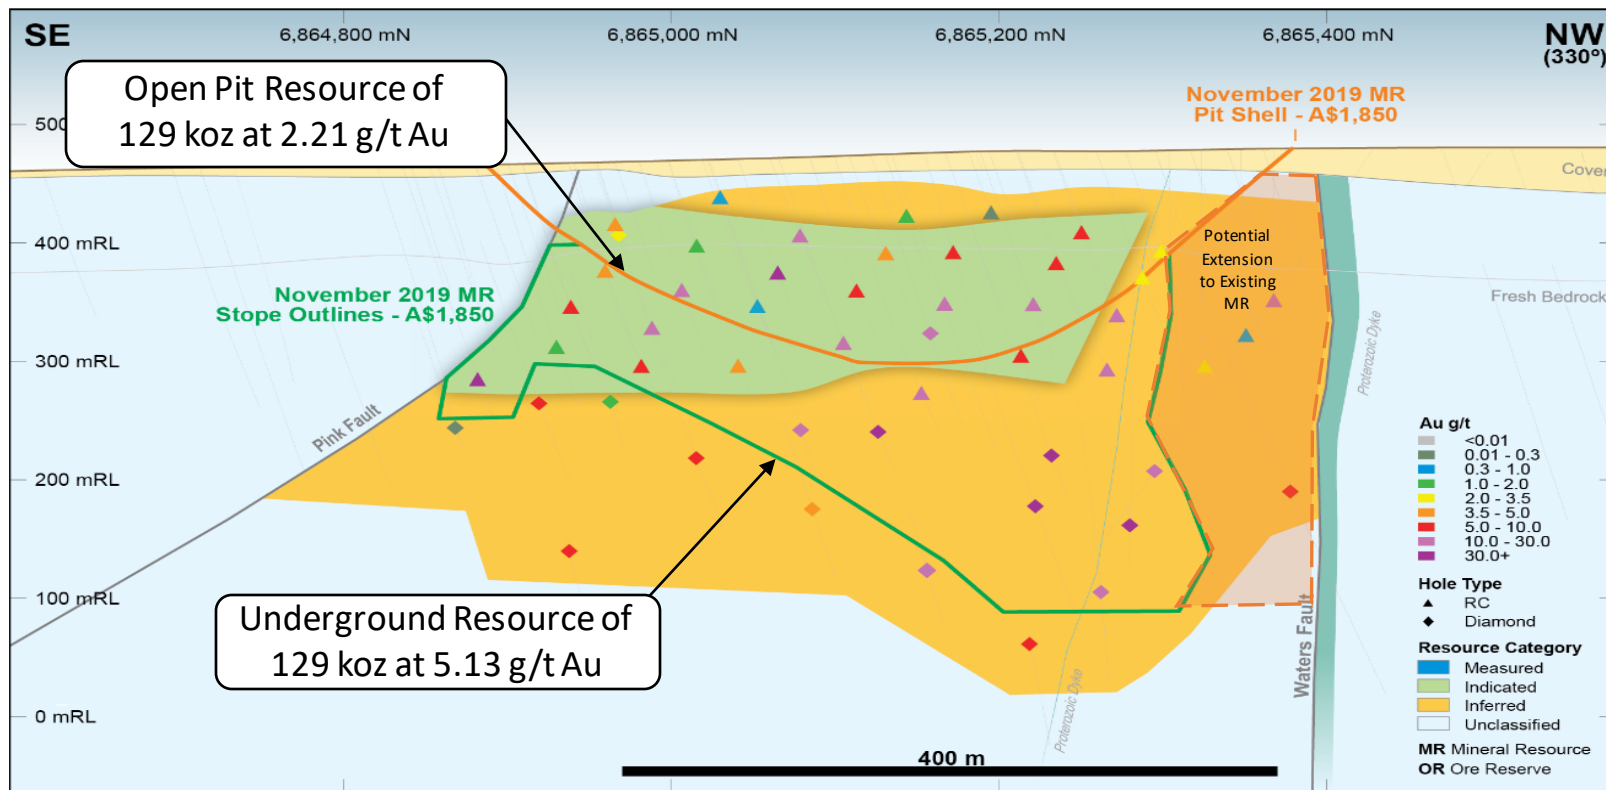

UNDERSTANDING THE SCALE OF THE MINERALISED SYSTEM

MAIDEN MINERAL RESOURCE EXPECTED BY EARLY 2022

GILMOUR RESOURCE

258,400oz at 3.09g/t Au

DELIVERING SHAREHOLDER VALUE

Strength

Strong business and balance sheet

Margin

Consistent production for >10 years

Growth

Growing production to ~350kozpa
Unlocking Gruyere at depth
Focus on discovery at Yamarna

Shareholder Returns*

Dividend paid and DRP
TSR (from Gruyere discovery): ~1,310%

* Total shareholder returns from 11 October 2013 to 24 November 2021: 11c – 153c plus 2c in dividend payments

APPENDICES

- Mineral Resources and Ore Reserve Tables

MINERAL RESOURCE & ORE RESERVE

NOTES

Mineral Resource 31 December 2021 – Notes

- All Mineral Resources are completed in accordance with the JORC Code 2012 Edition
- All figures are rounded to reflect appropriate levels of confidence. Apparent differences may occur due to rounding
- Mineral Resources are inclusive of Ore Reserves. Gruyere Measured category includes Surface Stockpiles. Mineral Resources are depleted for mining
- The Gruyere JV is a 50:50 joint venture between Gold Road and Gruyere Mining Company Pty Ltd, a wholly owned Australian subsidiary of Gold Fields Ltd. Figures are reported on a 100% basis unless otherwise specified, 50% is attributable to Gold Road
- All Open Pit Mineral Resources are reported at various cut-off grades allowing for processing costs, recovery and haulage to the Gruyere Mill. Gruyere and YAM14 - 0.4 g/t Au. Attila, Orleans, Argos, Montagne and Alaric – 0.5 g/t Au. Gilmour - 0.5 g/t Au. Renegade - 0.5 g/t Au
- All Open Pit Mineral Resources are constrained within a A\$2,000 per ounce or A\$1,850 per ounce optimised pit shell derived from mining, processing and geotechnical parameters from the Golden Highway PFS, the Gruyere FS and current Gruyere JV operational cost data. Gilmour and Renegade at A\$1,850 per ounce gold price
- The Underground Mineral Resource at Gruyere was evaluated by Gold Road in February 2021 based on the same estimation model used to estimate the Open Pit Mineral Resource reported as at 31 December 2020. The model was evaluated exclusively below the A\$2,000 per ounce pit optimisation shell utilised to constrain the Open Pit Mineral Resource and is reported as 100% in the Inferred category
- Underground Mineral Resources at Gruyere are constrained by Mineable Shape Optimiser (MSO) shapes of dimensions consistent with underground mass mining methods. The MSO shapes are optimised at cut-off grades based on benchmarked mining costs, current Gruyere operating costs and processing recoveries at a A\$2,000 per ounce gold price.
- Underground Mineral Resources at Gruyere considered appropriate for potential mass mining exploitation in the Central Zone are constrained within MSO shapes of 25 metre minimum mining width in a transverse orientation and 25 metre sub-level interval, and are optimised to a cut-off grade of 1.0 g/t Au
- Underground Mineral Resources at Gruyere considered appropriate for potential mass mining exploitation in the Northern Zone are constrained within MSO shapes of 5 metre minimum mining width in longitudinal orientation and 25 metre sub-level interval, and are optimised to a cut-off grade of 1.5g/t Au
- Underground Mineral Resources at Central Bore and Gilmour are constrained by 1.5 metre and 2.5 metre minimum stope widths respectively that are optimised to a 3.5 g/t Au cut-off reflective of an A\$1,850 per ounce gold price
- Diluted tonnages and grades are reported based on minimum stope widths

Ore Reserve 30 September 2021 - Notes:

- All Ore Reserves are completed in accordance with the 2012 JORC Code Edition
 - All figures are rounded to reflect appropriate levels of confidence. Apparent differences may occur due to rounding. All dollar amounts are in Australian dollars unless otherwise stated
 - The Gruyere JV is a 50:50 joint venture between Gold Road and Gruyere Mining Company Pty Limited, a wholly owned Australian subsidiary of Gold Fields Ltd. Figures are reported on a 100% basis unless otherwise specified, 50% is attributable to Gold Road
 - Gold Road holds an uncapped 1.5% net smelter return royalty on Gold Fields' share of production from the Gruyere JV once total gold production exceeds 2 million ounces
 - The pit design for reporting the Gruyere Ore Reserve is derived from mining, processing and geotechnical parameters as defined by operational studies, PFS level studies completed between 2019 and 2021 and the 2016 FS. The Ore Reserve is reported using the 2020 Mineral Resource model constrained within the pit design (which is derived from a A\$1,750 per ounce optimisation) and with Ore Reserves reported at A\$1,750 per ounce gold price
 - The Ore Reserve for the Golden Highway Deposits which include Attila, Argos, Montagne, and Alaric is constrained within an A\$1,750 per ounce mine design derived from mining, processing and geotechnical parameters as defined by 2020 PFS and operational studies
 - The Ore Reserve is evaluated using variable cut off grades: Gruyere - 0.5 g/t Au (oxide, transitional and fresh). Attila - 0.6 g/t Au (fresh), 0.5 g/t Au (oxide and transition). Argos – 0.6 g/t Au (fresh and transition), 0.5 g/t Au (oxide). Montagne – 0.6 g/t Au (fresh), 0.5 g/t Au (oxide and transition). Alaric - 0.6 g/t Au (fresh), 0.5 g/t Au (oxide and transition)
- Ore block tonnage dilution and mining recovery estimates: Gruyere – 4.2% and 99.6%. Attila - 16% and 96%. Argos - 9% and 88%. Montagne - 9% and 93%. Alaric - 21% and 94%
- Gruyere Proved category includes Surface Stockpiles. Ore Reserves are depleted for mining

COMPETENT PERSONS STATEMENT

Exploration Results

The information in this report which relates to Exploration Results is based on information compiled by Mr Andrew Tyrrell, General Manager – Discovery for Gold Road. Mr Tyrrell is an employee of Gold Road, and a Member of the Australasian Institute of Geoscientists (MAIG 7785). Mr Tyrrell is a holder of Gold Road Performance Rights. Mr Tyrrell has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Tyrrell consents to the inclusion in the report of the matters based on this information in the form and context in which it appears.

Mineral Resources

The information in this report that relates to the Mineral Resource estimation for Gruyere open pit is based on information compiled by Mr Mark Roux. Mr Roux is an employee of Gold Fields Australia, is a Member of the Australasian Institute of Mining and Metallurgy (MAusIMM 324099) and is registered as a Professional Natural Scientist (400136/09) with the South African Council for Natural Scientific Professions. Mr John Donaldson, Principal Resource Geologist for Gold Road has endorsed the Open Pit Mineral Resource for Gruyere on behalf of Gold Road.

- Mr Donaldson is an employee of Gold Road and a Member of the Australian Institute of Geoscientists and a Registered Professional Geoscientist (MAIG RPGeo Mining 10147). Mr Donaldson is a shareholder and a holder of Performance Rights.

The information in this report that relates to the Mineral Resource estimation for Gruyere Underground is based on information compiled by Mr John Donaldson, Principal Resource Geologist for Gold Road and Mr Steven Hulme, Principal - Corporate Development for Gold Road.

- Mr Hulme is an employee of Gold Road and is a Member and a Chartered Professional of the Australasian Institute of Mining and Metallurgy (MAusIMM CP 220946). Mr Hulme is a shareholder and a holder of Performance Rights.

The information in this report that relates to the Mineral Resource estimation for Attila, Orleans, Argos, Montagne, Alaric, YAM14, Central Bore, Gilmour and Renegade is based on information compiled by Mr John Donaldson, Principal Resource Geologist for Gold Road and Mrs Jane Levett, previously employed by Gold Road now independent consultant (Little Beach Consulting).

- Mrs Levett is a Member of the Australasian Institute of Mining and Metallurgy and a Chartered Professional (MAusIMM CP 112232).

Messrs Roux and Donaldson and Mrs Levett have sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as Competent Persons as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Messrs Roux and Donaldson and Mrs Levett consent to the inclusion in the report of the matters based on this information in the form and context in which it appears.

Ore Reserves

The information in this report that relates to the Ore Reserve estimation for Gruyere is based on information compiled by Mr Steven Hulme, Principal - Corporate Development for Gold Road.

- Mr Hulme is an employee of Gold Road and is a Member and a Chartered Professional of the Australasian Institute of Mining and Metallurgy (MAusIMM CP 220946). Mr Hulme is a shareholder and a holder of Performance Rights.

The information in this report that relates to the Ore Reserve estimation for Attila, Argos, Montagne, and Alaric, is based on information compiled by Mr Steven Hulme, Principal - Corporate Development for Gold Road.

Mr Hulme has sufficient experience that is relevant to the style of mineralisation and type of deposits under consideration and to the activity currently being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Hulme consents to the inclusion in this announcement of the matters based on this information in the form and context in which it appears.

New Information or Data

Gold Road confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and, in the case of estimates of Mineral Resources and Ore Reserves that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

The Company confirms that the form and context in which the Competent Person's findings are presented have not materially changed from the original market announcement.
