Gold Road Managing Director and CEO Duncan Gibbs commented: “The six months to 30 June 2022 has been a successful one for Gold Road, despite the challenging global operating environment. Gruyere achieved record production for the half year in line with our outlook of growing production through 2022 and 2023. The record gold production resulted in strong free cash flow for Gold Road and a record net cash position. The successful completion of the DGO Gold Takeover in June now provides Gold Road with an even more exciting platform for Growth.

Gold Road achieved a net profit after tax of \$39.9 million for the half year. The Company continued to return income to shareholders in the form of six-monthly dividend payments, and the Board has determined to pay a dividend for the 6 months to 30 June 2022 of 1.0 cents.”
