Operating and Financial Overview

The overview of the Group's operations, including a discussion of production and exploration activities are contained on pages 2 to 9 of this interim report.

PROFIT OR LOSS

The Group achieved a consolidated net profit after tax for the half-year of \$55.7 million (30 June 2022: \$39.9 million). EBITDA¹ for the period was \$122.6 million (30 June 2022: \$100.0 million).

Gold sales revenue of \$229.0 million (30 June 2022: \$196.5 million) was generated from the sale of 80,115 ounces (30 June 2022: 79,606 ounces) at an average gold price of \$2,858 per ounce (30 June 2022: \$2,469 per ounce).

Total cost of sales inclusive of amortisation and depreciation was \$123.1 million (30 June 2022: \$113.8 million), producing a gross profit from operations of \$105.9 million (30 June 2022: \$82.7 million). The increase in gross profit compared to the prior period reflects the higher average gold price realised for sales and the increase in the volume of gold sold.

Exploration costs expensed during the period was \$9.0 million (30 June 2022: \$12.9 million), a decrease from 1H2022 due to a higher portion of exploration expenditure being capitalised. Exploration and evaluation written off during the period was \$3.5 million (30 June 2022: \$nil).

Corporate and technical service costs for the period totalled \$11.1 million (30 June 2022: \$10.0 million), which included expenses related to the corporate office, compliance and operational support.

Fair value loss on derivatives for the period was nil (30 June 2022: \$0.6 million loss). No hedge position was taken during the period.

Finance income of \$2.1 million (30 June 2022: \$0.3 million) relates to interest earned on cash at bank and on deposit. Finance expenses of \$4.0 million (30 June 2022: \$4.0 million) principally relates to costs of borrowing and interest charged on leases.

Income tax expense for the period totalled \$25.0 million (30 June 2022: \$15.7 million).

¹ EBITDA is an unaudited non-IFRS measure, representing earnings before finance income, finance expenses, income tax, depreciation and amortisation expense. A reconciliation of consolidated net profit after tax to EBITDA is included on page 3 of the Directors' Report

Reconciliation of consolidated net profit after tax to EBITDA

EBITDA (unaudited)	122,602	99,993

FINANCIAL POSITION

The net assets of the Group increased by \$68.0 million for the six months ended 30 June 2023, further analysed below:

- Cash and cash equivalents increased to \$152.6 million (31 December 2022: \$74.4 million).
- Inventories of \$61.3 million (31 December 2022: \$57.3 million) increased as a result of building up warehouse consumables at Gruyere, offset by reduction in ore stockpiles.
- Financial assets at fair value of \$416.1 million (31 December 2022: \$406.5 million) increased as a result of market revaluation of interests in multiple listed entities, offset by the disposal of an investment.
- Property, plant and equipment of \$319.0 million (31 December 2022: \$324.3 million) decreased as a result of depreciation and amortisation.
- Right-of-use assets of \$119.1 million (31 December 2022: \$119.8 million) decreased as a result of depreciation expense, offset by CPI adjustments and new leases.
- Exploration and evaluation of \$35.9 million (31 December 2022: \$37.1 million) decreased mainly as a result of previously acquired exploration written off during the period.
- Lease liabilities of \$122.8 million (31 December 2022: \$122.5 million) increased reflecting CPI adjustments and new leases, and offset by repayment of lease liabilities.
- Current tax liabilities of \$18.2 million (31 December 2022: \$6.6 million) increased reflecting higher profit before tax, offset by tax instalments paid.

CASH FLOWS

Cash and cash equivalents increased during the period by \$78.1 million to \$152.6 million (31 December 2022: \$74.4 million).

Net cash inflow from operating activities for the period was \$110.3 million (30 June 2022: \$69.5 million). The increase reflects higher receipts from sales and interest received, lower income tax payments, and partially offset by increase in supplier payments.

Net cash outflow used in investing activities amounted to \$21.1 million (30 June 2022: \$23.4 million). The decrease during the period relates to payments for property, plant and equipment (including mine development), offset by proceeds from the disposal of an investment.

Net cash outflow from financing activities totalled \$11.1 million (30 June 2022: \$17.3 million) included lease repayments of \$6.5 million (30 June 2022: \$5.4 million) and a dividend payment of \$4.6 million (30 June 2022: \$3.7 million).

Review of Operations

The Gruyere Project is a 50:50 joint venture between Gold Road and Gold Fields, and is managed by Gruyere Management Pty Ltd, a wholly owned subsidiary of Gold Fields.

Gruyere celebrated four years of gold production on 30 June 2023, having produced 1,077,136 ounces (100% basis) since first pouring gold on 30 June 2019. This was delivered at an average All-in Sustaining Cost (AISC)² of A\$1,415 per attributable ounce to Gold Road³ for the period.

There were no Lost Time Injuries recorded over the half year at Gruyere. Gruyere has now achieved over 810 days LTI free. Regrettably, the Gold Road exploration team reported two Lost Time Injuries as a result of musculoskeletal injuries. The combined 12-month moving average Lost Time Injury Frequency Rate (LTIFR) for Gruyere (50% attributable) and Gold Road consequently increased from 0.00 to 2.13 on 30 June 2023.

MINING

Over the six months to 30 June 2023, Gruyere mined a total of 4.2 Mt of ore at an average grade of 1.21 g/t for 162,966 contained ounces (100% basis). Both ore mining and total material movement were lower than anticipated for the half year due to low drill and blast availability, exacerbated by a rain event late in the June quarter. Mined grades lifted to record highs as expected with mining advancing through higher grade zones in deeper sections of the Gruyere open pit.

In June 2023, following a competitive tendering process, MACA was awarded a five-year mining contract, with options to extend the contract for the current life of mine at Gruyere. Under the new contract, the mining rate will be increased from September 2023 with a goal to ramp up to full capability by early 2024. The mobilisation of new drilling equipment commenced in July and the replacement of the existing drill fleet will continue over the next three quarters, providing a new fleet of high-reliability drills, ameliorating the mining constraints in the first half.

PROCESSING

Total ore processed for the six months to 30 June 2023 was a record 4.8 Mt at a head grade of 1.17 g/t Au, and a strong gold recovery of 92.0% for a record 158,657 ounces of gold produced (100% basis).

The ore mining delays as a result of sub-optimal drill and blast availability during the first half of 2023 resulted in reduced availability of higher-grade run-of-mine ore to the process plant, with production being supplemented by the processing of 0.6 Mt of low-grade ore stockpiles. The blending of lower grade stockpiles resulted in head grades, and consequently produced ounces being lower than anticipated for the half year.

Record plant throughput for the six months to June 2023 reflects a combination of improving reliability and higher plant utilisation, in part arising from blending with softer oxide low grade ore. Record monthly plant throughput was achieved in May with 0.89 Mt processed.

Plant reliability and utilisation are expected to continue improving towards industry best practice. Head grades are expected to increase through the second half of the year as the delivery of higher-grade run-of-mine ore increases from the open pit.

COST PERFORMANCE AND 2023 GUIDANCE

AISC per ounce averaged A\$1,504 per attributable ounce for the first six months of 2023 (1H 2022: A\$1,376 per ounce) maintaining Gruyere's position as one of the lowest cost gold mines in Western Australia.

In January 2023, Gold Road released annual guidance for 2023 of 170,000 to 185,000 attributable ounces at an attributable AISC of between A\$1,540 to A\$1,660 per ounce⁴. Production guidance was subsequently revised to 160,000 to 175,000 ounces in June 2023 following lower gold production in the June quarter due to mining delays arising from low drill and blast availability⁵. AISC guidance was retained but is now expected at the upper end of guidance⁶.

Increased ore and waste mining are anticipated for the second half of 2023 whilst increased levels of sustaining capital expenditure are also guided in second half of the year as construction of the third Pebble Crusher is completed, and a scheduled tailings dam lift is commenced in the December quarter.

GRUYERE LIFE OF MINE PLAN REAFFIRMED TO 2032

The Gruyere Life-of-Mine plan reaffirms sustainable production through to 2032. The Life-of-Mine plan incorporates a seven-stage open pit (with Stage 1 and parts of Stages 2, 3 and 4 already mined). Mined grades and consequently head grades have progressively increased since 2021, with average annual grades of 1.0 g/t Au in 2021 lifting to average annual grades of 1.2 g/t Au in 2022. Mined grades are now set to be maintained at closer to average ore reserve grades (1.3 g/t Au).

GOLD ROAD MINERAL RESOURCES AND ORE RESERVES

In January 2023, Gold Road reported a 2% increase to the Gold Road attributable Mineral Resources⁷ (after mining depletion) to 4.79 million ounces, and a 9% decrease in attributable Ore Reserves (50% of Gruyere and Golden Highway Ore Reserves) after mining depletion to 2.02 million ounces.

GRUYERE JV EXPLORATION

Gruyere JV exploration efforts in 2023 continue to be focused on the Golden Highway Project, located approximately 25 kilometres to the west of the Gruyere mine site.

Plan view showing location of Golden Highway Deposits (Gruyere JV)

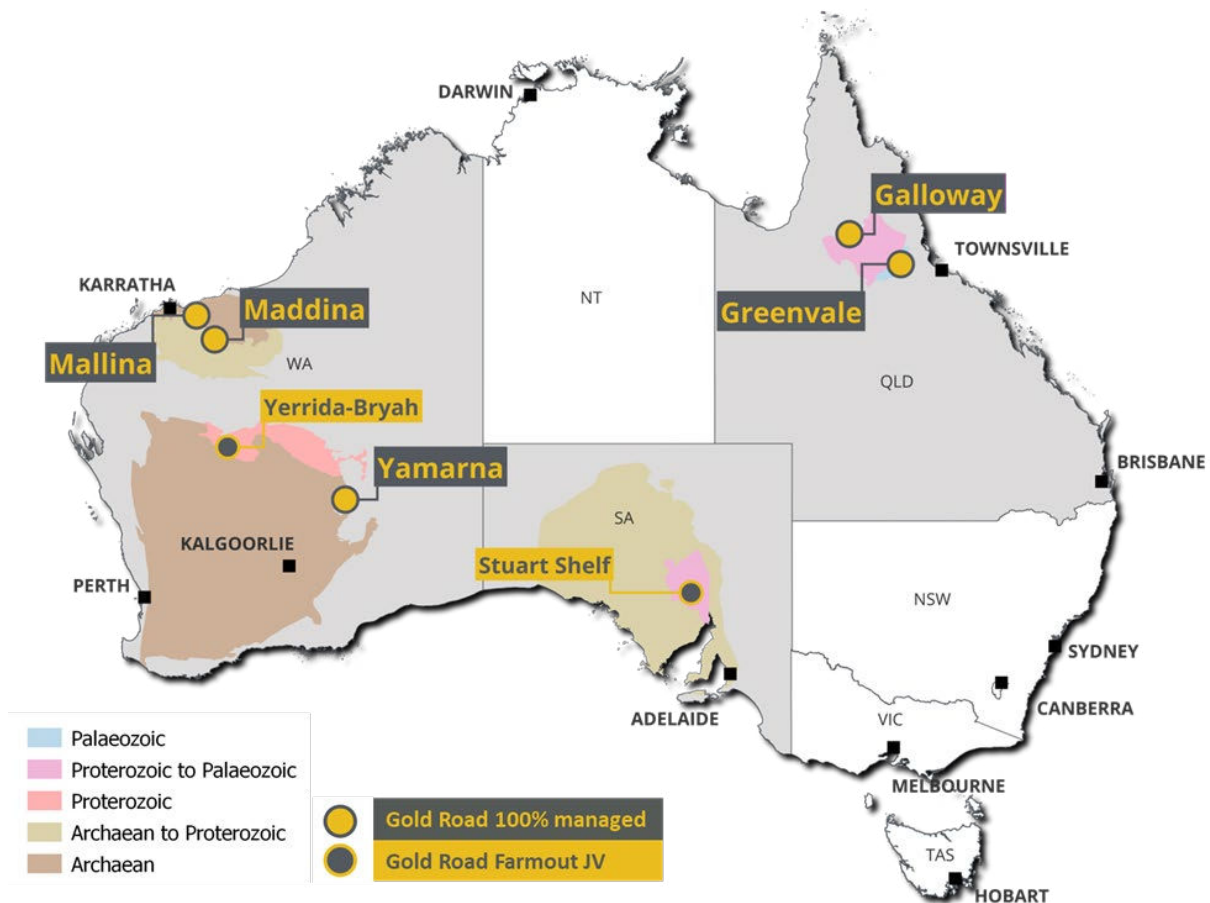

During the six months to June 2023, 15,495 metres of Reverse Circulation (RC) and 1,698 metres of Diamond resource definition drilling was completed on the Golden Highway. These programs aimed at extending the Indicated Resource categories is now complete. Significant economic intersections were received including 7 metres at 15.94 g/t Au, 4 metres at 26.83 g/t Au, 3 metres at 34.55 g/t Au, 0.49 metres at 141 g/t Au, 2 metres at 32.41 g/t Au and 5 metres at 11.45 g/t Au.

These encouraging results support Feasibility level studies, which are set to begin in the second half of 2023, in preparation for mining operations that are anticipated to commence in 2026.

Review of Regional Exploration

Gold Road's exploration strategy remains directed at delivering economic gold deposits that can be developed as standalone mining operations, creating shareholder value through organic growth.

Gold Road manages over 14,000 square kilometres of exploration tenure across prospective regions of Western Australia, South Australia, and Queensland.

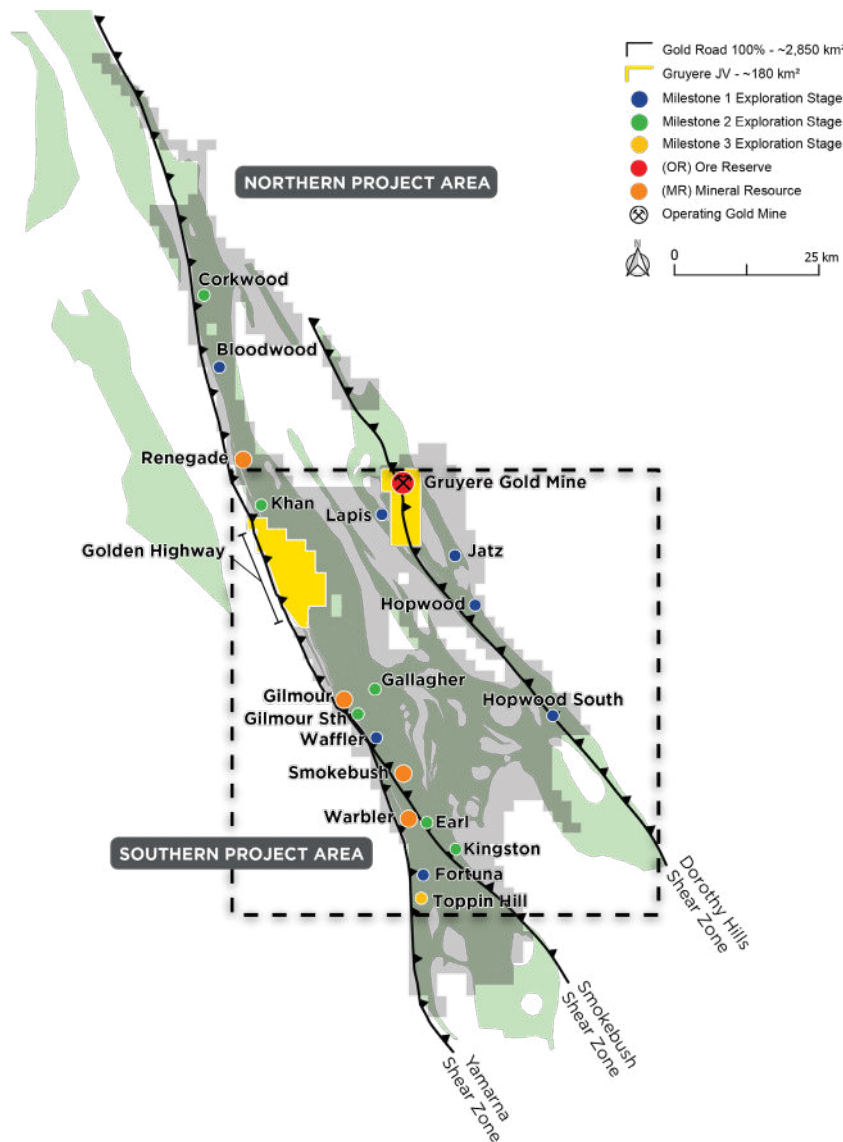

Map showing location of Gold Road's exploration projects over key geological terranes

YAMARNA (100% GOLD ROAD)

During the six months to 30 June 2023, a combination of 35,079 metres of Aircore and 329 metres of diamond drilling were completed across the Yamarna exploration project.

Aircore drilling across the project area continues to delineate and expand several multi-kilometre gold-in-regolith anomalies coincident with targeted fertile structural fluid pathways. Exploration programs were completed at Fortuna, Hopwood, Lapis, Corkwood and Bloodwood. Encouraging alteration was seen in drill chips from Lapis and Hopwood and assay results continue to be received.

Map showing regional geological framework, priority Southern Project Area and key prospects for 2023⁸

MALLINA (100% GOLD ROAD)

Exploration activities at the Mallina project during the reporting period focused on conducting RC drilling over priority targets on the western tenement package. Drilling has intersected alteration that is characteristic of known mineralisation elsewhere in the region. The drilling program is ongoing with a total of 3,772 metres completed to date, with receipt of all final assay results still pending.

GALLOWAY AND GREENVALE (100% GOLD ROAD)

On-ground exploration activities commenced at Greenvale with a focus on mineral system targeting through surface mapping and soils/rock chip geochemistry. Remote sensing and geophysical surveys are scheduled and will assist in delineating a priority target pipeline for follow up drill testing now scheduled for early 2024.

⁸ Tenement plan as at the 30 June 2023

YERRIDA-BRYAH (100% GOLD ROAD, DILUTING TO 30%)

During the half year Gold Road concluded negotiation of a farmout exploration joint venture for the Yerrida-Bryah project with an unlisted exploration company enabling a 70% earn-in on the project over 5 years.

Listed Investments

As at 30 June 2023, the Company had listed investments with a market value of \$416.1 million⁹. At the end of the quarter Gold Road continued to hold strategic shareholdings of 19.73% in De Grey Mining Ltd and 17.45% in Yandal Resources Ltd.

Events Occurring After Balance Date

Subsequent to the period ended 30 June 2023:

On 25 August 2023, the Directors determined the payment of a dividend of 1.2 cents per fully paid ordinary share, fully franked. The aggregate amount of the proposed dividend is expected to be paid on 5 October 2023 out of retained earnings at 30 June 2023, and has not been recognised as a liability at the end of the period.

Other than as noted above, there has not arisen in the interval between the six months ended 30 June 2023 and the date of this report any other item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

Auditors Independence Declaration

A copy of the Auditor's Independence Declaration as required under Section 307C of the *Corporations Act 2001* is set out on page 10. This report is made in accordance with a resolution of the Directors.

Notes to the Consolidated Interim Financial Statements

For the six months ended 30 June 2023

CORPORATE INFORMATION AND BASIS OF PREPARATION

Note 1 Corporate information

The interim financial statements cover the consolidated group comprising Gold Road Resources Limited and its subsidiaries, together referred to as Gold Road, the Company or the Group.

Gold Road is a company incorporated and domiciled in Australia, limited by shares, and is a for profit entity whose shares are publicly traded on the ASX.

Note 2 Basis of preparation

The Consolidated Interim Financial Statements were authorised for issue in accordance with a Resolution of the Directors on 25 August 2023.

These Consolidated Interim Financial Statements for the six months ended 30 June 2023 have been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standard (AASB) 134: *Interim Financial Reporting*. As such they do not include the full disclosures of the type normally included in an annual financial report and, therefore, it is recommended these Consolidated Interim Financial Statements be read in conjunction with the financial statements of the Group for the year ended 31 December 2022.

(a) Historical cost convention

The Consolidated Interim Financial Statements have been prepared under the historical cost convention, and on an accruals basis, except for derivative financial assets/liabilities and certain other financial assets and liabilities which are required to be measured at fair value.

(b) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operations – the functional currency. The Consolidated Interim Financial Statements are presented in Australian dollars, which is the functional currency of the Group's operations.

(c) Rounding of amounts

The Company is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and in accordance with that Instrument, all financial information presented in Australian dollars has been rounded to the nearest thousand unless otherwise stated.

(d) Critical account estimates

The preparation of financial statements requires the use of certain estimates, judgements and assumptions that affect the application of the Group's accounting policies. Actual results may differ from these estimates and application of different assumptions and estimates may have a significant impact on the Group's net assets and financial results.

The significant judgements made by the Group in applying the Group's accounting policies and the key sources of estimation were the same as those described in the Group's previous Consolidated Financial Statements, for the year ended 31 December 2022.

(e) Accounting Policies

The Consolidated Interim Financial Statements have been prepared in accordance with the same accounting policies adopted in the Group's previous Consolidated Financial Statements for the year ended 31 December 2022.

FINANCIAL PERFORMANCE

Note 3 Segment information

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Group's Board of Directors, being the Group's Chief Operating Decision Maker (**CODM**), in assessing performance and in determining the allocation of resources. An operating segment is a component of the Group that engages in business activities which may earn revenue and incur expenditure, and separate financial information is available that is evaluated regularly by the CODM. These are measured in the same way as in the financial statements.

The following have been identified as individual operating segments:

(a) Development and Production

All operating segments within Australia are one reportable segment being Development and Production, consisting of the Gruyere joint operation with Gold Fields. Exploration activities on Gruyere JV tenements are included in the Exploration segment.

(b) Exploration

The Exploration segment includes the activities on all mineral exploration tenements, including all joint venture tenements.

(c) Investment

The Investment segment includes the activities on equity securities investment.

(d) Unallocated

Unallocated items comprise corporate which includes those expenditures supporting the business during the period, and items that cannot be directly attributable to the Development and Production or Exploration segments or Investment.

The segment information for the reportable segments for the six months ended 30 June 2023 is as follows:

(b) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held.

On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote. Ordinary shares have no par value and the Company does not have a limited amount of authorised capital. The Company's shares are limited whereby the liability of its members is limited to the amount (if any) unpaid on the shares respectively held by them.

(c) Performance Rights

Information relating to the Employee Incentive Plan, including details of Performance Rights granted, exercised and cancelled/forfeited during the six month period and Performance Rights outstanding at the end of the reporting period, is set out in Note 18.

Note 17 Dividends

Note 19 Acquisition of DGO Gold Limited

On 4 August 2022, Gold Road completed the takeover of DGO Gold Limited (DGO). All consideration was in the form of Gold Road ordinary fully paid shares issued at a ratio of 2.25 Gold Road shares for each DGO share. At the close of the takeover period on 15 June 2022 Gold Road had control of DGO and consolidated from that point.

Consideration paid for DGO	\$'000

Note 23 Significant events after the balance date

Subsequent to the period ended 30 June 2023:

On 25 August 2023 the Directors determined the payment of a dividend of 1.2 cents per fully paid ordinary share, fully franked. The aggregate amount of the proposed dividend is expected to be paid on 5 October 2023 out of retained earnings at 30 June 2023 and has not been recognised as a liability at the end of 30 June 2023.

Other than as noted above, there has not arisen in the interval between the six months ended 30 June 2023 and the date of this report any other item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

Directors' Declaration

In the opinion of the Directors of Gold Road Resources Limited:

- (a) the Consolidated Interim Financial Statements and Notes that are set out on pages 16 to 25, are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the Group's consolidated financial position as at 30 June 2023 and of its performance, for the six month financial period ended on that date; and
 - (ii) complying with Australian Accounting Standards AASB 134: *Interim Financial Reporting*, the *Corporations Regulations 2001*; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Directors, on behalf of the Board.

Signed at Perth this 25 day of August 2023

Non-executive Chairman

Independent Auditor's Review Report

To the shareholders of Gold Road Resources Limited

Conclusion

We have reviewed the accompanying **Interim Financial Report** of Gold Road Resources Limited.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Interim Financial Report of Gold Road Resources Limited does not comply with the *Corporations Act 2001*, including:

- Giving a true and fair view of the **Group's** financial position as at 30 June 2023 and of its performance for the half-year ended on that date; and
- Complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The **Interim Financial Report** comprises:

- Condensed consolidated statement of financial position as at 30 June 2023;
- Condensed consolidated statement of profit or loss and other comprehensive income, Condensed consolidated statement of changes in equity and Condensed consolidated statement of cash flows for the half-year ended on that date;
- Notes comprising a summary of significant accounting policies and other explanatory information; and
- The Directors' Declaration.

The **Group** comprises Gold Road Resources Limited (the Company) and the entities it controlled at the half-year's end or from time to time during the half-year.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

Responsibilities of the Directors for the Interim Financial Report

The Directors of the Company are responsible for:

- The preparation of the Interim Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*; and
- Such internal control as the Directors determine is necessary to enable the preparation of the Interim Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the Interim Financial Report

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Half-year Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 June 2023 and its performance for the half-year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an Interim Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
